VIANU

WHO DECIDES WITH YOU?

MANAGEMENT AND OPERATIONS

VIANU makes custom insoles for employees who stand and walk for many hours. You keep shifts stable and secure the guest experience. A pilot with 10 employees shows you whether your team accepts the insole. Only then do you decide on more.

WHAT YOU NEED FOR YOUR DECISION

COSTS	10 pairs at EUR 120, EUR 1,200 plus VAT in total.
TIME NEEDED	A few hours: you define the test group, and the foot capture takes place for example during a break.
RESPONSIBILITIES	Roderich Körner-Rehn is the contact. Reply within 5 working days.
EVALUATION AND EXPANSION	A report at the end of the pilot, including four questions to the participants. Then you decide on more. You do not commit to a rollout beforehand.

Next step: Name a test group of 10 employees, set a date for the evaluation and only then decide on scaling. Contact: Roderich Körner-Rehn. Get in touch on the VIANU B2B page.
